EDUCATION

San Francisco State University | San Francisco, CA

Expected: Dec. 2027

B.S. in Computer Science | GPA: 3.9

- **Courses:** Data Structures (Java), Machine Structures, Numerical Analysis

Santa Rosa Junior College | Santa Rosa, CA

Aug. 2023 - May. 2025

Computer Science | GPA: 3.9

- **Courses:** Data Structures & Algorithms (C++), Discrete Math, Linear Algebra
- **Honors:** Dean's Highest Honors All Semesters

TECHNICAL SKILLS

Languages: Java, C++, HTML/CSS, JavaScript, SQL

Tools and Frameworks: Spring Boot, React, Docker, Postgresql, Git, GitHub, Vercel, Render, AWS, Redis, CI/CD pipelines, OAuth2

Spoken Languages: English, Spanish

PROJECTS

Hoops-Depot | Personal Project

Dec. 2025

- Full-stack web application built as a stat lookup tool for the 24/25 NBA season used to query points, rebounds, assists, and all other major NBA stats
- Built **RESTful** controllers and services using **Spring Boot** and **Java**, containerized with **Docker** and deployed via **Render**, connected to a **React** frontend deployed on **Vercel**
- Stats logged in a **PostgreSQL** relational database and deployed with **Supabase**

Fitness Tracker | Personal Project

Jan. 2026

- Built a **full-stack** fitness application with a calorie tracker, workout logger, and weight tracker featuring a visual progress graph and history, supporting custom food and workout entries with descriptions; tested by **10+ users**
- Developed RESTful backend with **Spring Boot** and **Java**, securing endpoints with **JWT-based authentication and authorization**
- Enforced **row-level security (RLS)** in **Supabase** so users could access only their own data

Green Sense | SF Hacks

Feb. 2026

- Led frontend development and owned deployment for a 2-person team, building a live temperature and humidity dashboard using **React** (deployed on Vercel), **Ngrok**, and **Flask**
- Integrated an **Arduino** device delivering real-time sensor readings updated every 5 seconds and compared to external weather data from **Open-Meteo API**, providing custom suggestions to minimize environmental impact

GENERAL EXPERIENCE & CLUBS

IN-N-OUT | Novato, CA

May. 2022 - Present

Associate - Level 4

- Mentored and trained new associates in food prep practices, customer service protocols, and operational procedures to ensure quality
- Delivered efficient, high quality service while collaborating in a 20+ person team maintaining food safety in a fast-paced environment
